Summary

Computer Engineering graduate with hands-on experience in building full stack software applications, backend APIs, databases, dashboards, and practical real-world systems. Experienced in developing web applications, working with databases, and implementing real-world systems involving analytics. Currently interning at IIT Bombay and focused on Software Engineering, Full Stack, Backend, and AI Engineering roles.

Education

Xavier Institute of Engineering <i>Bachelor of Engineering (Computer Engineering)</i>	2026
Sathaye College <i>HSC</i>	2022
Madhavrao Bhagwat High School <i>SSC</i>	2020

Experience

IIT Bombay <i>Research Intern</i> Working on industry project - Dhatuverse	July 2026 <i>Mumbai</i>
Bhabha Atomic Research Centre (BARC) <i>Project Intern</i> Developed a research-focused web system under expert mentorship.	July 2025 <i>Mumbai</i>
IBM SkillsBuild <i>AI/ML Intern</i> Worked on machine learning fundamentals and data analysis.	June 2024 <i>Virtual</i>

Projects

VPN Tunneling Dashboard (React.js, REST APIs, Charts & Data Visualization)

- Developed dashboard to monitor VPN tunnels (IKE & Child SAs).
- Visualized data using graphs and structured tables.
- Handled real-time data and secure network monitoring.

JATAYU Autonomous UAV (python, OpenCV, NanoDet, MAVLink, Flask, Raspberry Pi)

- Developed autonomous UAV for AI-based human detection and tracking..
- Implemented real-time navigation using stereo vision and depth estimation.
- Worked on hardware integration and control logic.

Retail Optimization Platform(React.js, Node.js, Express.js Supabase, YOLO, OpenCV, Stripe)

- Developed web platform for retail analytics and inventory tracking.
- Implemented data-driven insights for business optimization.
- Designed scalable system for startup use-cases.

Skills

- **Languages:** C++, Python, JavaScript, TypeScript, SQL
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, FastAPI, REST APIs, Authentication, API Integration
- **Databases:** MongoDB, MySQL,SQL lite,Postgress,Qdrant
- **Tools:** Git, GitHub, Postman, Azure DevOps, Docker Basics, GitHub Actions,MLOPS
- **AI & Machine Learning:** Machine Learning, Predictive Modeling, Model Evaluation, LangChain, Hugging Face, YOLO, OpenCV

Certifications

- AWS Academy Graduate
- Project Appreciation – BARC
- Project Appreciation – Client
- Data Analytics with Power BI and ChatGPT (Infosys Springboard)
